

SIDEWALK CAFÉ PROTOTYPE
 ALLSTON VILLAGE STREETScape IMPROVEMENTS

LOCATION | Allston, MA, USA
CLIENT | Allston Village Main Streets
DATE OF COMPLETION | Spring 2009 (anticipated)

XChange is providing design services for the Design Committee of the Allston Village Main Streets (AVMS) of Boston to re-invigorate the urban design quality of the Allston - Brighton area. Design services provided include street banner master plans as well as the design of sidewalk café prototypes for restaurants and cafés along Brighton Avenue.

XChange has been retained by the AVMS to develop an easily retractable sidewalk café system that minimizes storage requirements for restaurants and can be a year-round street furniture component. The prototypes are anticipated to be fully operational for the spring-summer seasons of 2009.
